## CENTRAL COLLEGE,

215—*Calle del Peru*—216.

Mr. WERNICKE,

This educational establishment well known among natives and foreign residents of Buenos Ayres and the Provinces was opened in the year 1852, and at always since through the incessant care and attention of the Director and his well known professors, to give the soundest education to the pupils confided to their management.

The branches carefully taught are French, English, German, and Arithmetic, and a particular care is given to a good hand writing and geography.

The pupils find everything for their comfort—in the playyard are every kind of gymnastic apparatus.

## C. G. Calvert's Phosphine & Gowland's Sheep Salve

The great reputation these specifics have enjoyed in England on account of their extraordinary success in all cases where they have been applied, has induced the proprietor to introduce them in this market on account of the immense sheep farming interest of this country. To enable shepherdmers to obviate, in future, the enormous losses they sustain yearly, not only in the destruction of the Sheep, but also, so frequently happens, the loss of the animal itself. It is a powerful antiseptic, and beauty suits a fair trial, feeling confident of the result. The following is a list of some of the cases to which these antiseptics may be applied—

In Sheep—To cure maggots, foot-rot, sore, &c.

In Horses—Canker in the lips, grease, quitter, all cangrenous wounds, or ulcers, cracked heels, mange, &c.

Cows; distempers, all diseases of the hoofs.

For wounds or bruises resulting from accident and for all general Veterinary purposes these remedies are sure. Every line is testified to by the most eminent Veterinary Hospitals in England for curing Cancer, Fistula on is also used for preserving hides, skins and horses from all vermin, and has the proofs already cured whilst in this city and Australia have received the approval of parishes in England who have ordered them to be perfectly tested and used. The leather used from the hides is also declared to be superior in every respect

TUESDAY, SEPTEMBER 1, 1863.

## EDITORS' TABLE

Amongst our exchanges by the packet we have received a postage 1 to from Messrs. Wright and Kelso, Liverpool, entitled 'A Shepherd's Paradise,' Montevideo. It is, we fear, rather a sunny picture of Oriental life, and evidently written before the camp became swarmed with cut-throats, runaways, and revolutionists. Nothing can be a greater proof of the interest which is at present taken at home in Argentine matters than the number of books published in England concerning the River Plate.

Major Rickard's book has been announced for publication, and is expected out in the new steamer La Plata. Hinchliff's Sketches in the River Plate is also published, and on sale.

Consul Hutchinson's work is fast approaching completion. A Life in the River Plate, by some unknown author, is also in circulation.

The Republic of the Uruguay. Montevideo, Geographical, Social, and Political, by an Englishman in Montevideo.

And last, not least, the River Plate Hand book, compiled and published by ourselves.

It is clear, therefore, that our friends at home do not know enough about the River Plate, it is not for the want of books on the subject.

The rain has at last come—mild, warm, delicious rain, followed by the lightest genial sunshine. The prayers of the sheep farmers have been at last heard. The glorious torrents on Saturday night, the intermittent showers of Sunday, are worth more than all the wealth of the Bank or the paper dollars of speculation. We are happy to learn that the rain has been general, both south and north.

On Saturday we were informed that Sor Lanas had not resigned: at least, his resignation had not been, nor would be, accepted. The 'Tribuna' people seem to have been glad of an excuse to get clear of this distinguished diplomatist. One of the editors of that paper states that he has had repeated regular crushing article, but in the instance of a friend, and hearing that Sor Lanas had resigned, he abstained from publishing it.

The Salto arrived yesterday from Montevideo and Buenos Ayres. The passengers were Mr. Ure, Mr. Peppercure, and Mr. Mercedes. Young Urquiza is going aboard in the Brazil Oriental and we are in not much doubt he enters until he has restored harmony and order in that unhappy country. We fear that the gauchos are ill-adapted to his steady rule in the Banda Oriental and from Entre Rios and Corrientes. Peace is greatly discussed at this moment, and that of Salto, between the Argentine Government and the insurgents, there seem to have no doubt.

The Nacion Argentina reports the capture of the Indian guerilla, Lopez Jones and Co. the former in the Rosario, the latter in the Cordova. Governor of Cordova, the former in Rosario, the latter in the Cordova. We do not think it worth attention of troubles in these provinces.

A meeting was held on Sunday, Mr. Peppercure presiding, to which he has for a week every evening with such success of letters, and was elected treasurer. Some regret in front of the Cathedral in July, he was not known there, although falling up the first lane which covers the foundation stone of Buenos Ayres.

We are at a loss to know what can be keeping Governor Thinks of the country of the French into Mexico. The Mexicans are cited triumphal arches, strewed the streets with flowers, and elected the French General as the saviour of the country. The Tuileries would seem to be the only place where friendly demonstrations to the French officers in front of Orizaba are dictated. How to make French country at Paris in this country into Mexico could not have been more triumphant. Thus whilst a few seerning Argentine citizens were labouring over the rate of Mexico, the Mexicans themselves were rejoicing at their change. We hope that Governor Thinks will not treat the matter seriously, as it should be remembered that any misunderstanding between his Excellency and Messrs. Mail and Billings. The latest news of our gallant Mexican deputy is, that Forster is going to read Bilbao's address from the summit of the Cordilleras.

The Indian is again beginning to be in Mendoza; Pincheira is marching to defend the place. The inhabitants are greatly frightened.

The draught in San a Fe was beginning to be felt; cattle and sheep were in very poor condition, and as for horses, except in the towns, there are none.

Owing to the great seca in the South all communications between Chile and the Argentine have for some time past been suspended. We are happy to see that Don Carlos Vergara has started a coach drawn by horses for Chile, which will commence running from to day.

A clerk of a leading house was arrested on Saturday, charged with opening various sums of money belonging to his employer. We understand that up to Saturday night the deficit was exceeding $200,000.

If we are to believe a rather questionable colleague, $20,000 is nearly that in Rosario, at the school of arts, a gifted canoan has been made Although this is a sign of improvement, we confess we should be better pleased to hear that a square of cotton plants were in a good way of doing.

Governor Lagrelis (Corrientes) took, in the absence of our notice of him. He has already planted the contents of 20 bags brought out by Mess. Kerr & Co's steamer. He intends to plant enough to lay down 1000 squares, or 2500 acres, containing 12 millions cotton-soil. Such a Governor is well-deserving of his country.

Sir, Wheelwright is getting on very well in London, and expects the Central Argentine Railway Co. will be fully formed before the end of August. Southampton mail. He has sent instructions to continue the earthworks, so that the line will be a-building.

I hope they will have concluded 8 miles by the end of August. He likewise thought the goods arrived had worked so well as to finish the whole section long since.

## TEA-TABLE TALK

The fair sex at present holds Carnival: the 'beaux,' or cavaliers, are celebrating Sta Rosa's day, patroness of South America, and the only child of the New World as yet canonized by the Church of Rome, while pleasure-seekers have a record of gaieties. The ceremony at S. Domingo on Sunday was very grand and well-attended, notwithstanding the bad state of the weather, and the function was crowned at night. We are doubly indebted to the Holy Virgin of Lima for sending us such beneficent rain, when so badly wanted, and keeping the winds in proper subjection, to the safety of our planned shipping masters.

Ball was a splendid affair, the dresses, decorations, supper, &c. in excellent taste. The daughters of an English family, and not merely progeny, were the maiden names.

## LAW OF CITIZENSHIP.

The only and letter by an Englishman in reply to Dr. Lafinur, was published in the 'Nacional,' and being *apropos* we translate in full.

Mr. Editor.

Permit me to correct a statement contained in the discourse of the Minister of Foreign Affairs to the British Charge d'Affaires, that the Anglo-Argentine treaty of international questions must be put down either as a gross error or wilful falsehood.

Mr. Elliot by speaking of the citizen law of 1857, says "that it was repealed by the peace-convention, on the union of the provinces with the rest of the Republic."

"The law of 1857 was not a National law, it never held force in the province of Buenos Ayres and was repealed by the Constitution fra ned on the national re-integration.

Lastly we have a higher authority than Mr. Elliot's declaration, which is the National Constitution and it Art. 31, it says "this Constitution, the national statutes dictated by Congress in pursuance thereof, and the treaties with foreign powers, constitute the supreme law of the Nation, and the authorities of each province are obliged to conform thereto, no matter what objection to the contrary may be contained in Provincial laws or constitutions.

On assuming the Reformed Constitution not an iota was altered in the wording of the law of 1857, and the following words were added. "Excepting the province of B. Ayres, as regards all acts anterior to the period when the same finally compact of Nov. 11, 1859." This conveys no exemption from the laws of the Nation with which Buenos Ayres is incorporate, but only from the treaties enumerated.

Therefore the law of Citizenship, of the 1857 remains in full force, and the Congress, conformably with Art 31 of the Constitution, a d accepted in its integrity by the province of Buenos Ayres, the decree of Dr. Elizalde, that the Argentine Republic gives to the projected law, respecting British subjects.

Let me take this occasion to make some remarks touching a matter very favourably received by the chief Dean of English civil liberties are concerned.

By virtue of the existing statute of the Constitution, a treaty was concluded with Spain on the effects of which are, that the Spaniard is to take up in the light of an international compact. Buenos Ayres accepted Art. 31 of the Provisive constitution, without any reservation, and by the accepted in the Reformed Constitution; and as the existing treaty between England and the Argentine Confederation guarantees to the Spaniard the advantage of "most favoured nation," it is clear that English subjects should enjoy the rights and exemptions granted to Spain, especially as nothing more is required of Spain, than the Constitution of the country allows—supposing always the law to receive by the authorities of which we have spoken no doubt, seeing Mr Elizalde's despatch.

Granted, still further, by way of hypothesis, the position of Buenos Ayres, is taken from its treaty with Spain, still as the city has been for almost, it is manifest that the sons of Englishmen born in the Argentine Republic may claim the nationality of their parents, not being affected by the exception for the province of B. Ayres enacted by the law of 1857.

I cannot conclude this brief article without expressing my surprise that the Spanish Minister for Foreign Affairs, even more than taken the initiative in this matter in which it is an interested than England, France and Belgium are not, seeing that Spanish subjects belonging, as has been shown, to each one and more especially to Spain which has a distinct treaty, and is supposed to maintain it.

## AMERICA.

(Times' Telegram by the North American.)

New York, July 17.

General Lee still occupies the position in front of Hagerstown and Williamstown, and is entrenching his front. He continues to transport his wound and the property he captured in Pennsylvania across the Potomac. It is reported he is receiving reinforcements and supplies of ammunition from Virginia, and that he intends to try his fortune in another battle with General Meade on or near the old battle-field of Gettysburg.

The report of the death of General Kilpatrick is denied.

Despatches from Tullahoma of the 13th state that General Burnside may be expected the Tennessee, at Bridgeport on the 7th, and destroyed the bridge at that point.

Telegrams to the 'Richmond Inquirer' from Atalanta, Georgia, announce that an important movement was taking place in General Bragg's army, but that it was impossible to mention its nature. Also, that General Bragg's head-quarters were established at Dalton, and that the Louisville and Nashville railroad would be the future line of defence.

The absence of details from General Grant, as well as from the newspaper correspondents, of the surrender of Vicksburg, causes a degree of doubt to be entertained by many persons as to the correctness of the despatch dated the 8th and purporting to have been sent by Admiral Porter. The Rosecrans despatches are also not quite satisfactory, as they do not explain how it is that the besieged city still holds out.

The 'Richmond Inquirer' of the 6th says that unofficial information by telegraph from Jackson, Mississippi, states that General Sheppard and Taylor had crossed the Mississippi at Natchez, ten miles above New Orleans and were marching on that city; and under the leading of Lieut. Gen. Stanley. They are said to number 9000 of the enemy near New Orleans.

Telegrams from Richmond of the 9th report the evacuation of that State by 5,000 or 6000 Confederates under General Morgan. The Confederates crossed the Ohio at Brandenburg, Kentucky, and the destruction of bridges on the line are entertained that General Morgan will advance directly on New Albany and Jeffersonville, where large quantities of supplies are stored.

Business was entirely suspended in Indianapolis on the 9th, and the citizens were forming into a regiment for its defence. Governor Morton had called for 50,000 men to repel the invasion.

Skirmishing is of frequent occurrence between the outposts of the armies of Generals Lee and Meade, but the position of the main bodies of the opposing forces are unchanged.

A serious riot broke out this morning in New York, in consequence of the enforcement of the conscription. Several thousand persons surrounded the office in which the lists were drawn, destroyed the enrolment papers, and assaulted the officers and the police, entry into effect of the draft. Several of whom are reported to have been killed or wounded. Infantry and artillery have been ordered from Governor's Island to quell the disturbance.

## THE QUESTION OF PEACE.

The 'Morning Herald's' correspondent, in his letter from Washington, says that the question of peace has been continually discussed in the Cabinet, and that Mr. Seward has proposed that the President should revoke his emancipation proclamation, suspend the Conscription Act, and proclaim a general armistice. Messrs. Chase, Stanton, and Wells oppose the proposition unless slavery be abolished.

## FRANCE AND THE POLISH QUESTION.

Paris, July 22.

Paris semi official journals continue to insist on the Polish question being a European one, and the general inference, it is assumed, they desire to be drawn is, that there will be no war unless England can be induced to join in it.

## THE POLISH INSURRECTION.

Cracow, July 22.

The insurgents under Wierchleski gained the victory in an engagement with the Russians near Sirzin, on Sunday. Count Pashouski has been shot at Minsk, by order of General Mouravieff. 200 landowners in the the palatinate of Wilna, and 210 in Kalisz, have had their estates confiscated by Mouravieff. The property of 42 more has been plundered. The Czar announces that the railway has been discharged in the vicinity of Wilna.

## RUSSIA.

Berlin, July 22.

According to letters received from St. Petersburg, the Russian Government has instructed its representatives at Paris to sound the intentions of the French Cabinet on the subject of fresh negotiations concerning Mexico.

Typhus fever prevails at Malaga, Valladolid, Seville, and Granada.

## AUSTRIA.

Vienna, July 22. Evening.

M. de Galatine, the Russian Ambassador, is about to proceed to St Petersburg for the purpose of obtaining fresh instructions. He will remain there for three weeks, and is expected to return here about the middle of August.

Austria has addressed a preliminary note to Russia in reply to the despatch of the Russian Cabinet on the Polish question. This note announces that Austria cannot abandon the line of conduct she has pursued up to the present. She rejects the proposed co-operation of Russia, Prussia, and Austria, maintains the six points, and declares that it may further steps as may tend to secure their own interests only. Notice have been simultaneously despatched by the Austrian Government to the Courts of Europe, announcing that Austria will continue to act in concert with them, and will firmly maintain the six points

## POLAND.

Whilst the National Government is actively carrying on its secret work, the Imperial and military are increasing the number of their arrests, which are now said to have reached the enormous figure of 200 per diem. The town of Janow, in the south of Poland, has been destroyed by the Russians, almost in the form of every opposition to arrests, on wives, sons, and children. Russel, 7th all Lithuanian landed proprietors were suspected of sympathy with the insurgents will be arrested and their property confiscated. It is now estimated that over 3,000 of the nobility and one half of the smaller tenantry, forming a total of nearly 20,000, have already arrived with in Lithuania. In the dungeons of the fortress of Dunaburg there are now confined 1,700 persons, and orders have been given for the erection of dungeons for 150 more. The knout is now being used in the citadel of Warsaw as an instrument of torture to force from the persons forming the National Committee. J. Gawinski, a gallant youth of 22, has been hanged at Kielce, by order of the Russian Commander-in-Chief. Count Pashouski has been shot at Minsk and in other districts arrests, confiscations, and acts of brutality are the order of the day.

## THE FRENCH IN MEXICO.

Mexico, June 11th.

A courier leaves for Vera Cruz today. I doubt their being in time for the French packet, but send these few lines for what they are worth.

General Forey made his triumphal entry into Mexico yesterday at the head of about 17,000 men. After marching through the city, he alighted at the cathedral, and in the midst of a solemn Te Deum, said a short but impressive prayer, at the conclusion of which he stepped himself before the altar, and placed upon his head a splendid wreath of laurel. The ceremony was then concluded. The whole of the troops remained in the city during the night, and were reviewed this morning by Marshal Bazaine. Bells were ringing, flowers were showered down upon him, balconies were filled with ladies, and the whole of the population seemed to be in the streets. I had no private opportunity of seeing the General, but I believe he has satisfied with the reception given them. The General, in reply to an address presented him by some of the principal inhabitants, after alluding to the benevolent intentions of the Emperor, made use of the following remarkable expression:—Nous ne voulons point de conquête, nous ne voulons que notre honneur et la paix." If this indeed can not be brought about, it will indeed be a blessing to Mexico. It is certainly to be hoped that a cessation will not once be set in the direction of Guerrero and San Luis; if this be done with the whole of the country and its army will not move beyond the city before resistance, and it is more than probable that some of the principal chiefs will come and tender their submission at once. I am still decline in favor of the intervention. A report to current this morning that San Luis was already "pronounced" but I think that it is premature. Forey will give to Quiroga time to disarm himself and to put the mind to abandon the capital. On the following day Congress met and passed a law declaring that from the capital of the republic a dictatorship day the Aguinaldo was appointed Dictator, and Bazaine would be Lieutenant-Dictator. The Ayuntamiento, feeling the insecurity of their position at once appealed to Forey for protection, and this is why mustering about a thousand cavalry men nobly answered the appeal. Night and day were patrols kept up in each street, and the consequence was that I passed 7 days, for it was not until the 8th of June that General Bazaine was able to organize the city. I regret to say that there was little or no resistance was afforded by the Mexicans themselves; all was left to the Juaristas, a guilty one after another on Sunday, the 31st of May. The took with him 7,000 to 8,000 men, Diaz, Alatorre, and Negrete, long as the new lists the troops will stick to that but time gone, the poor President will find himself almost without a man. I leave.—*Times' correspondent.*

## LATEST FROM MONTEVIDEO

Medina writes to the Government, saying that he has retreated with 6 from the north of the Rio Negro, he states that all the rebels, montoneros, &c., are concentrated from those camps.

Salto advises the Government from Payandu, that he encountered on the 23d of August a party of rebels at a place called Paso de los Piedras del Queguay. A fight ensued, the rebels were cut to pieces, three of whom were killed on the spot, including the captain of the gang called Sarasian Arevalos, and the rest dispersed in confusion.

Since the 27th Flores has been in the neighbourhood of Mercedes, and was encamped on the contents of Col. Lucas Moreno, on the Cuarto. The whole population of the place have been under arms for three days.

The rumours respecting the desertions in Aurelio's army are universal. The army is in 4 divisions, 1400 horses and 400 foot.

Medina's force amounts to 2200 cavalry and infantry, of which will shortly be added the regiments of Echenique, Payandu and Salto.

## MERCEDES.

August 27, 1863

On the 22d inst. Carabello, with about 400 men, was within a few le nues of this town

On the 24 h Colonel Laguna, with some riflemen, reconnoitred the vici nity, but Flores now kept away

The Governor has 1500 men and 1000 horses in Mercedes to defend the pla e.

Owing to the constant presence of large forces in this neighbourhood, ‘ovcilloe’ have risen greatly in price, and cannot be got at the Government figures. The Chief of Police has therefore, increased the Gove nment price five reals.

The death of Dr Arcando has plunged all Mercedes in mourning. It may be remembered that this distinguished Oriental was the compiler of our Commercial Code.

## ENTRE RIOS.

The Entre Rano Bank it is thought will so soon started.

A new paper has made its appearance in Gualeguay.

General Lamas's interview with Urquiza is the matter of great discussion. Soon is think that it will lead to another act in the great Oriental drama.

The Uruguay states, that in consequence of the contract of the Captain of the Paraguay, and 50 seamen employ ed, which Flores is receiving from Buenos Ayres, the Brazilian Minister in Montevideo has advised President Flores's Government that the Brazilian Government would send troops into the Banda Oriental for the immediate suppression of the rebellion, and that the other foreign ministers held a meeting, in which they dictated a note to the Argentine Government.

NEWSPAPERS.—A man eats up a pound of sugar, and the pleasure he enjoyed is ended; but the information he gets from a newspaper is treasured up in the mind to be enjoyed anew, and to be said whenever occasion or inclination calls for it. A newspaper is not the opinion of one man, or two men: it is the wisdom of the age, and of the past ages too. A family without a newspaper is like a family without a mind the times in general information. Besides they never think much, or find much to talk about. And then there are folks on evening as in ignorance without any taste for reading. Besides all these evils, there is the wife who, when her husband asks her to read to him with her hands in her lap and nothing to amuse her or divert her mind is no better than a useless piece of domestic circle. Who then would be without a newspaper?—Ottawa Citizen

## MARRIAGE.

On the 13th inst. at Hampton, by the Rev. James. Barrow, vicar of Hampton, assisted by the Rev. P. Bailly, curate of Hampton Court Palace, Major Francis Ignacio Rickard, F G S, Government Inspector-General of Mines in the Argentine Republic, to Julia, only daughter of R. W. Heurtley, Esq. of The Cedars, Hampton, and 20 Lowe crescent, Brighton.

## ON CHANGE

August 31st.

To day was a busy day on the Bolsa, the last day of a month of the greatest speculation. Small speculators and outsiders we hear lost heavily, but the cigarette ladies and bears have suffered comparatively nothing Strange to say ounces closed to day only 4 reals dearer than at what they opened at the first of the month. At a glance at the operations of August will convince any one of how the market stands, and what the bulls and bears have been doing to run it up. On the 1st August 2901 ounces were sold, to be delivered to-day at prices ranging from 431 1/2 to 434 1/2, which leaves him a neither 1 s nor 1 gain. On the 3d 560 del. ere 1 s 31st were sold at from 433 to 437 1/2, which leaves a loss to the buyers.

On the 4th, 5000 were sold at from 5 to 8 loss to buyers

On the 6th, 3½ 1/2 at from 432 to 435, which leaves a slight gain to buyer.

On the 7th, 1200 at from 434 to 436 1/2, gain to buyers.

On the 8th, the buyers made a good business; 9295 were bought at from 429 to 432 1/2.

On the 10th, buyers still had the advantage; 5350 at from 432 1/2 to 434 1/2 1/2.

Aug. 11. Buyers were again on the right side; 2400 were sold at 429 1/2 to 430. Very heavy time sales were made this day, every transaction leaving a gain to buyers at the day's end.

Aug. 12—Purchasers on the old a splendid business; 5600 ounces were sold at from 427 to 429.

Aug. 13—The bears again losing; 3 0 were a lit at from 427 to 429.

Aug. 14—Buyers again make a good speculation; 1900 were sold at from 425 1/2 to 426.

Aug. 17—This was the best day for the bulls during the month; 3700 were sold at from 423 to 425.

Aug. 18—3700 were sold at from 425 to 429

Aug. 19—1200 from 426 to 428.

Aug. 20—1454 from 428 1/2 to 431.

Aug. 21—6300 from 433 1/2 to 434 1/2.

Aug. 22—The bears made a good business this day in the low ounces which were sold; 600 were sold at from 432 1/2 to 434 1/2.

On the 24th 2000 were sold at from 3 2 1/2 to 435 1/2.

On the 25th only 951 were sold for the end of the month at from 432 to 434 1/2.

On the 26th 1150 were sold at from 432 to 434 1/2.

On the 27th 3570 were sold at from 432 1/2 to 436 1/2. Buyers lose.

Aug. 28—400 were sold from 435 to 436 1/2. Buyers lost.

Aug. 29—2250 from 433 to 434 1/2

All the above sales were for the 31st August. The first time since we have not thought necessary to review. The fluctuations have been light, leading slightly in favour of buyers on loan

The River Plate Bank has changed its rate of interest slightly charging no account current on specie 10, on paper 12, and allowing on specie 8, and on paper 6. Per note on 7 days' notice for specie 9, and paper 7, and for fixed periods for specie 10, and paper 8

We hear that the new branch of the Maua Bank will change its rate or no.

Business is so very dull, that money is beginning to be lott a drug, and our first class paper is flat out under bank rates for 60 days

The remaining 2 n shares of the San Juan Mining Company were taken up not to-day by an Englishman. All the stock is now sub-ribed for. Major Rickard has returned from Europe, and is waiting for the Scots which is to bring the greater part of the machinery. We are happy to say that there is every reason to believe that this Sa n Juan Mining Company will prove one of the best ejected even in the country. We could wish however, to see the Board of Director. town here, and not in San Juan

Ounces opened to day at 432 1/2, and went up to 434, closing firm at that price. Cash sales, 1 187.

## LETCHFORD'S WAX VESTAS.

H. Letchford & Co. hold themselves responsible for the quality of their Wax Vestas, and having recently built an extensive Factory especially adapted to this peculiar manufacture they can bestow proper care on all the details which render their Vestas the best in the market. Consumers, therefore, when ordering Wax Matches should be particular in requesting Letchford's make, as others are often substituted.

H. Letchford's Factory, Bethnal Green, London.

## List of Steamers for Sale.

No 1. Iron Clipper, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 2. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 3. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 4. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 5. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 6. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 7. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 8. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 9. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 10. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 11. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 12. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 13. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 14. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 15. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 16. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 17. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 18. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 19. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 20. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 21. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 22. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 23. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 24. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 25. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 26. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 27. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 28. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 29. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 30. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 31. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 32. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 33. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 34. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 35. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 36. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 37. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 38. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 39. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 40. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 41. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 42. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 43. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

No 44. Iron Screw Steamer, built 1863. Length over all 180 feet, depth in hold 20 feet, breadth of beam 28 feet, tonnage 1000 tons, burthen 1500 tons, engines 200 horse power. Remarkably fast sailer, and well found in every respect.

*SAUNDERS & KEYSER,*
ENGINEERS, MILLWRIGHTS, BRASS FOUNDERS, &c.
117—Perú 119—117.
BUENOS AYRES.

SAUNDERS & KEYSER, engineers, millwrights, brass founders, &c., beg to announce publicly that the premises No. 117 Perú, and also those known as No. 119 Perú, are now in their occupation, and that the business carried on by the late firm of Saunders, Keyser, and Co., will be continued by the undersigned.

Steam engines, pumps, sugar mills, sugar machinery, and every description of machinery, whether for steam, water, or horse power, made to order. Iron and brass castings, of every description, in general and on the most reasonable terms.

Messrs. Saunders & Keyser also beg to state that they have taken into their employment a gentleman who has had many years experience in the construction of steam engines, and who can undertake to erect and put in operation any machinery they may supply, and they trust that the long experience and practical knowledge of the members of the late firm, as well as their own, will enable them to give satisfaction to all who may favor them with their orders.

Buenos Ayres, 1st January, 1863.

# COLEGIO ANGLO-PERTHENO
**1863—CALLE SAN PEDRO—1863**

This school has been established for several years, and is well known in this city.

No pains are spared to make the place of instruction attractive to the pupils, and the instruction itself profitable.

Patrons are respectfully invited to visit the school, not to note carefully the system and the progress of progress and the attainment.

The English, Spanish, and French languages are taught by reliable and faithful instructors, and every branch of useful or ornamental education may be pursued in either of these languages.

French and drawing are taught after school hours. Also an afternoon class for fancy work four times a week.

Day pupils can be received at any time, and for the latter accommodation is boarders or half boarders.

Sept 29th.

*Anne S. Smith*, 205 *Maypu*,
